**Toilet rebate program  
expands to big buildings**

A water-saving collaborative in Broward is offering rebates for those who replace their water-guzzling toilets with low-flow models.

The program is expanding now to include larger buildings, including non-profits, multi-family housing and commercial buildings. Residential homes already qualify.

The rebate is \$100, which covers the price of a high-efficiency toilet.

The Broward Water Partnership's goal is to save 30 million gallons of water a day in the county. To find out details go to [www.ConservationPays.com](http://www.ConservationPays.com) or call 800-270-9794.
