Turn away
for a moment
and the

POOL

could be **your CHILD'S GRAVE**

Drowning is the #1
cause of
death for children
ages 1 to 4 in Broward County

If you could prevent your **child's death**
WOULD YOU?

- ✓ **NEVER** leave children unattended near any body of water—even for a moment. Children can drown in as little as two inches of water in less than one minute.
- ✓ **Install** a self-closing gate around the pool.
- ✓ **Alarm** every door leading to water to alert you if a child has gone outside.
- ✓ **Teach** children water and swimming skills.
- ✓ During pool parties or family beach gatherings, **designate** an adult to watch the children.
- ✓ **Remove** any toys that may attract children to the pool area.
- ✓ **Install** a safety net pool cover to secure the water area.
- ✓ **Install** a poolside, cordless phone.
- ✓ Keep **lifesaving** equipment—a pole, life preserver and rope—in the pool area.
- ✓ Children with long hair should **clip** it back or wear a cap in the pool.
- ✓ **Avoid** keeping water in buckets or other large containers when toddlers are home.
- ✓ **Don't** rely on flotation devices to protect your children in the water.
